

LICENSING FOR ASSETS PROVIDED:

This is for the Godot Surface Tool tutorial provided on RandomMomentania.com!

(Written on: 11/04/2018)

Please read over this carefully to know the various licensing requirements for the material provided in this tutorial. **Failure to comply with the licensing for the provided material lies solely with YOU. RandomMomentania is not responsible for any problems that may arise from your failure to comply to the licensing for the provided material.**

Also, if something is missing its copyright information here, please contact me at TwistedTwigleg@RandomMomentania.com so it can be fixed! No disrespect to the copyright holders is intended, and RandomMomentania will gladly work with license holders to resolve any problems if any arise.

The external **sites/software used in the tutorial are NOT associated** in any way with RandomMomentania, nor does RandomMomentania have any claims in regard to the sites/software listed.

RandomMomentania has no claims on anything provided from outside sources.

If you have any questions, please email me at TwistedTwigleg@RandomMomentania.com and I'll be happy to help answer as best I can!

FILE LICENSING

Unless otherwise mentioned, all other material was originally created for this tutorial!

Any original material, created solely for and by RandomMomentania, is licensed under CC BY 4.0, which you can find [HERE](#).

There is one additional restriction: You cannot redistribute the original material.

You are allowed to remix, tweak, and build upon the material provided, even commercially, as long as you credit RandomMomentania for the original creation and do not distribute the original material.

Thanks, and please enjoy the tutorial!
